

ENVIRONMENT POLICY

ATHENA reaffirms its commitment to a clean, safe, and healthy environment through a **Zero Harm rule** and shall operate all its assets in an environmentally sensitive and responsible manner. We shall strive to continually improve environmental performance through implementation of **best practices** in all aspects of business by adhering to the following:

- Pro-actively anticipate the risk & opportunities and make business decisions that aim towards sustained Environmental best practice throughout the project life cycle.
- Ensure that our business activities comply with, and where possible exceed, all applicable environmental regulations.
- Inculcate Environmental consciousness in its Employees, Contractors and all its stake holders through frequent trainings and by deploying adequate resources to accomplish our environmental commitments.
- Minimize pollution, emissions, waste, and conserve resources such as reducing energy and water usage and improving efficiency.
